

How Are You Preparing? We Have Options

Protect your Business with EWMI's COVID-19 Disinfection Services

As businesses prepare to reopen, it's important to have a plan in place to help get you back up and running, and keep you there. EWMI / RRI has taken on the procedures and disinfection measures necessary to mitigate the spread of COVID-19. We have the resources to deliver in preventative and emergency response situations, and the expertise to complete the follow-through.

If your company or tenants require emergency preparedness or disinfection services, call us. Don't put your staff at risk! We are here to help.

Disinfect More than Office Spaces

Our highly trained teams are safely, effectively, and quickly implementing the correct measures to keep our clients' people and operations safe. More than just office spaces, facilities, and plants can be disinfected, we can also make safe:

- Warehouse and distribution operations
- Heavy equipment and machinery
- Job trailers
- Manufacturing Spaces
- **AND MORE**
